The number of pupils in the categories within some subgroups can be small and any differences in performance should be interpreted with caution. Small base numbers can have a large impact on percentage figures. Where differences in percentages are small, these might not be statistically or educationally significant.

Data Notes:

* LA results throughout this analysis includes Special schools and Pathways Short Stay school.

* The number of pupils in the categories within some subgroups can be small and any differences in performance should be interpreted with caution. Small base numbers can have a large impact on percentage figures. Where differences in percentages are small, these might not be statistically or educationally significant.

Data Sources:

* School data is from data submissions and pupil characteristics are taken from the 2017 January School Census. For additional matching of pupil characteristics, information has been obtained from the 2017 May Census and EMS Capita One.

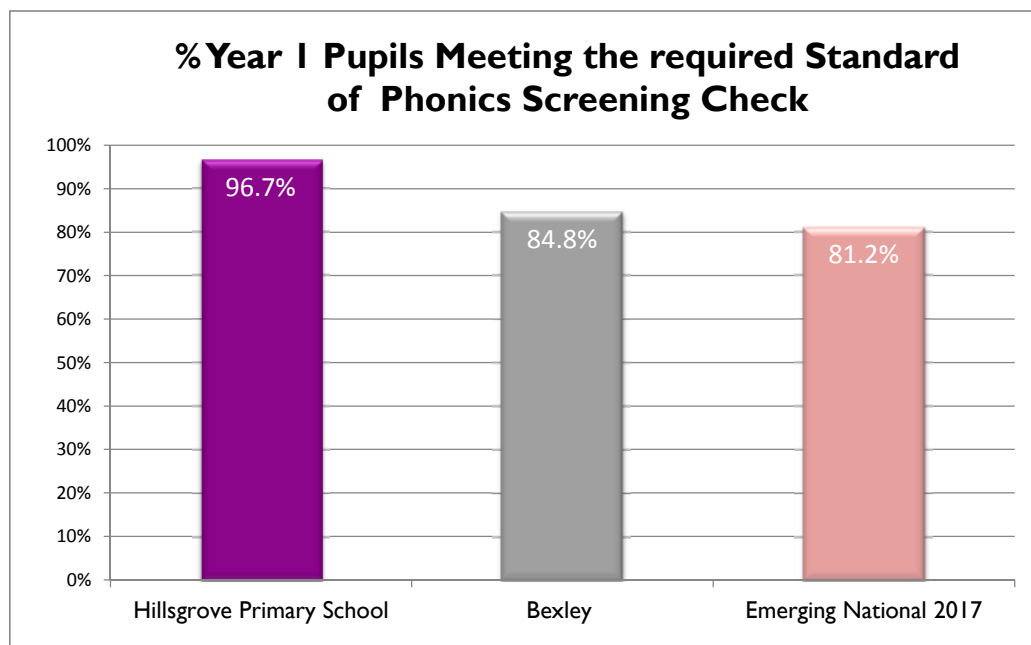

* LA Data: calculated from pupil level results and summarised to create an LA result.

* National Data: taken from published Statistical First Releases available on the DfE website. The 2017 emerging national figure is taken from NCER as at 19th July 2017.

The number of pupils in the categories within some subgroups can be small and any differences in performance should be interpreted with caution. Small base numbers can have a large impact on percentage figures. Where differences in percentages are small, these might not be statistically or educationally significant.

Average Phonics Mark by Pupil Characteristics - All Pupils, Girls & Boys - Year 2

The outcome column compares your school's average mark to the Bexley average mark for each pupil characteristic. A positive sign indicates your school has a higher average mark than Bexley, a negative sign indicates your school has a lower average mark than Bexley and a full stop indicates you match the Bexley average mark
