The number of pupils in the categories within some subgroups can be small and any differences in performance should be interpreted with caution. Small base numbers can have a large impact on percentage figures. Where differences in percentages are small, these might not be statistically or educationally significant.

**Data Notes:**

\* LA results throughout this analysis includes Special schools and Pathways Short Stay school.

\* The number of pupils in the categories within some subgroups can be small and any differences in performance should be interpreted with caution. Small base numbers can have a large impact on percentage figures. Where differences in percentages are small, these might not be statistically or educationally significant.

**Data Sources:**

School data is from data submissions and pupil characteristics are taken from the 2018 January School Census. For additional matching of pupil characteristics, information has been obtained from the 2018 May Census and EMS Capita One.

Pupil Premium data is taken from DfE information released to the LA in late July 2018.

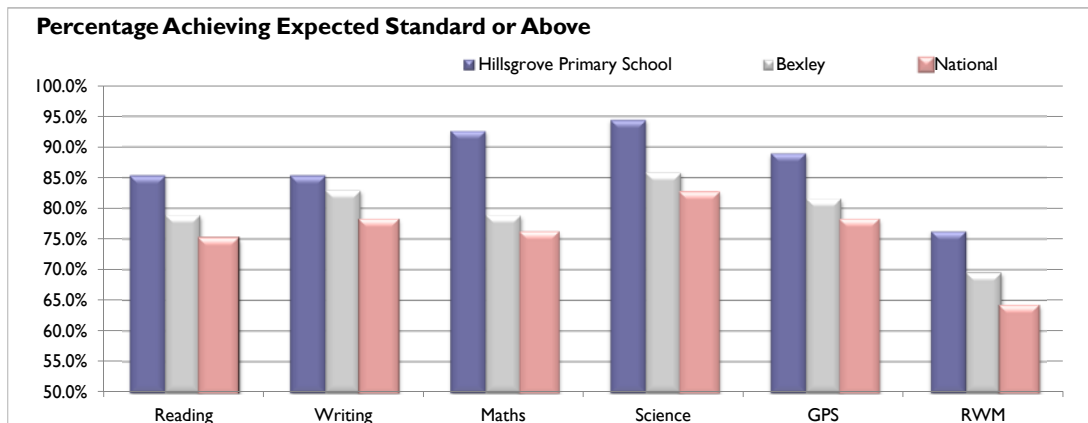

LA Data: calculated from pupil level results and summarised to create an LA result.

National Data: taken from published Statistical First Releases available on the DfE website. The 2018 national attainment data is from SFR 43/2017. The 2018 emerging national progress figures are taken from NCER as at: 20th July 2018.

The number of pupils in the categories within some subgroups can be small and any differences in performance should be interpreted with caution. Small base numbers can have a large impact on percentage figures. Where differences in percentages are small, these might not be statistically or educationally significant.

The number of pupils in the categories within some subgroups can be small and any differences in performance should be interpreted with caution. Small base numbers can have a large impact on percentage figures. Where differences in percentages are small, these might not be statistically or educationally significant.

Methodology for Calculating Progress

- Calculate the combined Key Stage 1 average points score (APS) for Reading, Writing and Maths
- The Key Stage 1 APS is equally weighted for English (Reading and Writing) and Maths
- Assign each pupil a Prior Attainment Group (PAG) based on their combined APS (The table to the left shows the 24 PAGs)
- For each PAG, the national Key Stage 2 averaged scaled score is calculated by subject
- The average scaled score for Writing is calculated using the following 2016 conversions:  
Working Towards the Expected Standard - 91  
Working at the Expected Standard - 103  
Working at Greater Depth - 113
- A pupil's progress score is the difference between their own scaled score and the 2017 national average Key Stage 2 result for their prior attainment group
- The average progress score is 0
- A school's progress scores is the average of all their pupils' progress scores for each subject. School level progress scores will be presented as positive, negative or 0

Progress Calculation includes: pupils with Key Stage 1 results and pupils who are below the level of the test and have a TA outcome of BLW, PKF, PKE or PKG.
